Dear Representative,

I am a survivor of an automobile accident. I was 13 when it happened. I am currently 45 and have been receiving care since my accident. I was on my way to go swimming and was broadsided by another vehicle. If you were to get rid of Auto No-Fault, I don't know what I would do. I would have no place to stay and no money to survive. Please SAY NO to HB 4936.

Sincerely,

Karen Kolesky
